

ANIMAL CLUES GUESS WHO

CREATURE CLUE CARD

In **Animal Clues Guess Who**, readers use four clues and a close-up picture to guess each animal. Each clue provides one piece of the puzzle, and when all four clues are put together, it becomes much easier to guess that animal.

Now it's your turn to collect clues about an animal. Research an animal in **Animal Clues Guess Who** or in any other nonfiction animal book you own. Visit the library and check out a book about an animal, especially a book about animal tracks. Write or draw in the answers, or look around your house for stickers or stamps that will help complete the card.
